

Flammable properties:	Non – flammable
Flash point:	None
Flammable limits:	Not applicable
Auto – ignition temperature:	No applicable
Hazardous combustion products:	None
Extinguishing Media:	Use extinguishing agent applicable to surrounding fire. If oxidation starts, the material should be cooled with water to dissipate the heat.
Fire fighting instructions:	Fire fighters should be wear NIOSH approved, positive pressure, self-contained breathing apparatus and full protective clothing when appropriate.
Unusual fire and explosion Hazards:	Not applicable

Section 6 Accidental Release Measures

Small/large spill:	Wipe up or wet sweep spillage
Waste disposal method:	Waste should be disposed of in accordance with Federal, State and Local regulation.

Section 7 Handling and Storage

Handling:	Good industrial hygiene practice requires that employee exposure be maintained below TLV. This is preferably achieved through the provision of adequate ventilation where necessary. Where dust cannot be controlled in this way, personal respiratory protection should be employed.
Storage:	Store in a clean, dry area at ambient temperature in original unopened containers.

Section 8 Exposure Controls, Personal Protection

Engineering Controls:	Use with adequate ventilation to meet exposure limits
-----------------------	---

Respiratory Protection:	NIOSH approved dust respirator if over-exposure potential exists.
Skin Protection:	Protective gloves
Eye Protection:	Safety glasses, goggles recommended.

Section 9 Physical and Chemical Properties

Appearance	Thick Paste
Odor	Floral
pH	7.5 ± 0.35 at 25°C
Vapor pressure:	Not applicable
Vapor density:	Not applicable
Boiling point:	Not applicable
Melting point:	Not applicable
Solubility in water:	Yes
Specific gravity:	1 ± 0.05
Viscosity:	60 - 70 (dial reading) 25°C Brookfield viscometer, model LVT, spindle TD @ 0.6 rpm, 60 sec.

Section 10 Stability and Reactivity

Stability:	Product is very stable if stored in clean dry ambient temperature in original unopened containers. Store at temperature below 80°F recommended.
Incompatibility:	None
Hazardous Decomposition products:	None
Hazardous Polymerization:	None

Section 11 Toxicological information

This product is not considered to be a known or suspected carcinogen by NTP, IARC or OSHA.
