

AMERICAN VOLUME®

Features

Soft, lightweight, and dark

Flexible

Four different curl types:

- N-Curl
- B-Curl
- C-Curl
- D-Curl

Three different diameters:

- .05mm
 - .07mm
 - .10mm
-

Advantages

NovaLash's American Volume has a smaller diameter than classic extensions

The extension maintains its shape when wet; it bends and flexes but doesn't lose its curl

Gives artists the ability to create unique fans with a large selection of curls, diameters, and lengths

Benefits

Smaller diameters feel less bulky and are designed not to poke or irritate the skin

Flexible extensions increase retention, therefore increasing customer satisfaction and loyalty to the artist

A variety of extensions allows stylists to create custom looks for each client's face shape and preferences
