

DUMONT FINE TIP FORCEPS

Features

Made of Inox stainless steel

Light weight forceps with a low pressure point for use

STRAIGHT FORCEP:
Electron Microscopy Instrument

CURVED FORCEP:
45-degree curved tip

Advantages

Durable and manufactured to last 50 years

Easier on the hand and wrist muscles

Highly intricate precise tip

Fine tip can access even the tightest spaces for separation and is excellent for isolating even the smallest natural lashes

Benefits

Will not rust or deteriorate

Artists experience less pain while lashing

Speeds up application time

Separation and isolation are a breeze which speeds up application time
