

# GEL PATCH PACKS

## Features

Lint-free

---

Silicone Based

---

Large white surface

---

Dense pad

---

Gentle and pliable

---

Gel-like adhesion

---

Contains natural active ingredients

---

## Advantages

Non-fibrous product

---

Provides a more comfortable feeling on skin

---

Better visibility of the natural lashes and extensions

---

Safer to use with pointed forceps

---

Can be trimmed to fit around all eye shapes without damaging the product

---

Gel pads will not slide or move around once placed

---

No Mastisol

---

## Benefits

Product will not fray or crinkle

---

Clients leave feeling refreshed, hydrated, and beautiful

---

The clear visibility allows for a faster application

---

Will not puncture as easily allowing for faster application time

---

Secures all lower lashes so top lashes don't stick to the bottom

---

Saves time during the service when adjustments are not needed due to movement

---

Can be used on clients with tape allergies

---
