

LONDON VOLUME AUTOFAN MIX CAMELLIAS

Features

Soft, lightweight, and dark extensions

Long-lasting and flexible

Pre-made fan

Advantages

NovaLash's AutoFAN Mix Camelia has a smaller diameter than classic extensions, allowing for clients to have voluminous fans without damaging their natural lashes

NovaLash's AutoFAN Mix Camelia will retain its shape when wet in comparison to other autofan extensions

- Saves the artists' time during appointments
 - Clients can get more extensions during their appointment
-

Benefits

The small diameters are designed to be lightweight and non-irritating

Clients will experience longer retention, resulting in less infills and more customer satisfaction

- Stylists save time by not having to create fans
 - Shorter appointment times mean more clients, and more free time for the artist
