

PARAFILM

Features

Pliable

Waterproof

Disposable

Advantages

Sits perfectly on the back of the glove with double sided tape

Designed with a moisture barrier to hold the adhesive shape, prevent air bubbles and drying

Hygienic, prevents cross-contamination from client-to-client

Benefits

Using the Parafilm as the as the base for the adhesive on the back of the glove reduces application time

Adhesive retains moisture allowing the artist to use every last drop of the adhesive (reduces waste)

It reduces clean up, saves time, and helps keep clients safe and germ-free
