

# POT LASHES

## Features

Made of strong, synthetic fibers

---

Soft, tapered tip

---

Comes in a variety of curls, thickness, and lengths

---

## Advantages

Extensions will not lose shape when showering, swimming or doing other activities in water

---

Client's lashes will look natural and high quality

---

Can be used all customers and eye shapes

---

## Benefits

Clients will experience a longer retention and wear time, which will lead to greater satisfaction

---

Clients will be happier with the natural beauty, which will result in referrals

---

There's no limit to who can be lashed and artists can create a customized look that differentiates their individual style

---
