

Features

Slim, light-weight design

Flexible plastic blades

Faster fan speed

Advantages

Will not tire the hand after extended use vs other products

Artists never have to worry about injuring clients

Provide a quicker drying experience as opposed to an old-fashioned plastic bulb or puffer

Benefits

Provides less strain on the hand and wrist, making the artist more comfortable and efficient

Designed with safety in mind, will not damage or cut the skin if accidental contact is made

Saves lash artists' time which means they can see more clients, take a lunch break, or spend more time with family
