

Features

Small compact display shows the humidity and temperature (Fahrenheit/Celsius)

Provides 24-hour average readings

Advantages

Stylists have more control of the drying time of the adhesive

With this feature, stylists can see what the air in their workspace is doing after hours and can discover trends during the day to anticipate changes

Benefits

Gives artists the knowledge they need to tailor their surroundings to their specific needs

It takes the guesswork out of monitoring their work environment and simplifies their experience with controlling adhesives
